Engaging Creativity

Bring creativity and harmony into environments with New Composition. Inspired by the art of Wassily Kandinsky, the modular carpet and broadloom styles feature elemental shapes that Kandinsky favored, delicately layered and expressed in a palette designed for play. Building iterations of form and color across spaces, New Composition opens up the imagination.

- Specifications are based on averages from normal manufacturing tolerances. Such variations do not affect product performance.
- Protective chair pads are recommended under office chairs with roller casters to preserve appearance and avoid premature wear.
- As with all quality carpets, slight variation in color may occur from dye lot to dye lot.
- Backing or other materials may be changed without prior notice when shortages occur or when technological advancements provide improved product performance.
- This product is intended solely for use as an indoor floor covering and is not recommended or sold for any other purpose.
- The inherent characteristics of geometric linear patterns can result in double-dark or double-light lines at the seam and to some extent pattern run-off or bias. This is not a manufacturing defect, and as such, should be considered when selecting a modular carpet installation method.
