# Make your own path. Wander and wonder.

Inspired by Oregon's wild and rugged coast, secluded ridge lines and meandering trails. This collection started with a road trip, with opening ourselves up to the world we share in full confidence that new patterns would be revealed, unearthed, created. The result is luxurious textures. Sharp linear striations that emphasize movement from one plank to the next. Colors that were born on the coastline: from the richly saturated to neutral, nature-inspired grays and browns.

### Proven by Third-Party Testing

Every carpet we make at Mannington Commercial is third-party tested and proven to exceed industry standards in appearance retention, texture retention, fire safety factors and static generation, and our modular carpet exceeds industry standards in dimensional stability—so you can be sure that the carpet you specify will perform for years to come.

### Easier to Maintain

- > The molecular strength of type 6,6 nylon delivers greater resilience against matting and resists abrasive wear, keeping carpet looking better longer.
- > XGUARD® Stain Resistant Technology provides long-term stain resistance for our space dye products.
- > ColorSafe® Bleach Resistant Technology resists color fade-out from bleach spills for our space dye products.
- > Moisture-barrier backings are built to withstand aggressive wet cleanings.

### Backing Advantages

- > Infinity® 2 and rEvolve® II Modular backings provide exceptional performance with a moisture barrier as well as superior tuft bind and dimensional stability with a limited lifetime warranty.
- > rEvolve II is a PVC-free modular backing. For additional backing options please visit our website.

### Sustainable Solutions

- > Supported with third party verified EPDs and HPDs.
- > Infinity 2 Modular and rEvolve II backings are NSF/ANSI 140 Gold Certified and contain recycled content.
- > Recognizing the impact that the built environment can have on Earth's climate and health, Mannington Commercial is improving operations and offsetting cradle-to-gate embodied carbon by 105% on this collection, as part of our commitment to helping customers take positive action through their projects.

### TARR

- > Portland Revisited Collection carpet was specifically designed with a 3.0 TARR rating for heavy use environments with substantial foot traffic. This includes conference rooms, open office areas and classrooms. Our TARR rating is tested and verified by an independent lab.

## No Moisture Testing Required\*

Solutions crafted for high-moisture conditions. Defeat moisture issues with carpet backings that do not require moisture testing\*.

We have solutions for broadloom and modular carpet to make moisture worries evaporate. From backing options to adhesives to a dry installation system, explore solutions that defeat moisture concerns while enhancing the performance of your floor.

- Specifications are based on averages from normal manufacturing tolerances. Such variations do not affect product performance.
- Protective chair pads are recommended under office chairs with roller casters to preserve appearance and avoid premature wear.
- As with all quality carpets, slight variation in color may occur from dye lot to dye lot.
- Backing or other materials may be changed without prior notice when shortages occur or when technological advancements provide improved product performance.
- This product is intended solely for use as an indoor floor covering and is not recommended or sold for any other purpose.
- The inherent characteristics of geometric linear patterns can result in double-dark or double-light lines at the seam and to some extent pattern run-off or bias. This is not a manufacturing defect, and as such, should be considered when selecting a modular carpet installation method.
- Please make your final selection from an actual swatch. To order samples, go to [manningtoncommercial.com](http://manningtoncommercial.com) or call 800.241.2262
