Proven by Third-Party Testing

All of our carpet products are third-party tested and proven to exceed industry standards in appearance retention, texture retention, fire safety factors and static generation, and our modular carpet exceeds industry standards in dimensional stability—so you can be sure that the carpet you specify will perform for years to come.

Easier to Maintain

- > The molecular strength of type 6,6 nylon delivers greater resilience against matting and resists abrasive wear, keeping carpet looking better longer.
- > XGUARD® Stain Resistant Technology provides long-term stain resistance for our space dye products.
- > ColorSafe® Bleach Resistant Technology resists color fade-out from bleach spills for our space dye products.
- > Moisture-barrier backings are built to withstand aggressive wet cleanings.

Backing Advantages

- > Infinity® 2 Modular backing provides exceptional performance with a moisture barrier and allows for installations in areas with up to 99% RH.
- > Infinity® 2 Modular backing offers superior tuft bind and dimensional stability with a limited lifetime warranty.

Sustainable Solutions

- > Supported with EPDs and HPDs.
- > Infinity® 2 Modular backing is CRI Green Label Plus Certified and NSF/ANSI 140 Gold Certified.
- > Infinity® 2 Modular backing contains recycled content.

TARR

- > The Case for Silence carpet was specifically designed with a minimum of 3.5 TARR rating for use in severe environments with rigorous foot traffic. This includes public areas, lobbies and dining facilities as well as transportation service areas such as airports. Our TARR rating is tested and verified by an independent lab.

Is there such a thing as complete silence?

In the noisy hustle of life, the idea of silence has become a promise of pure calm, utter tranquility – an experience always out of reach in our daily lives. Yet the busy spaces in which we work and learn can still support a nurturing return to balance. The Case for Silence presents two patterns that each combine the flux and variability of visual experience with a calming emergent order, helping you provide people with spaces that are dynamic yet quietly grounded.

BurkeBase® Wall Base Collection

BurkeBase wall base offers one of the broadest range of constructions, sizes and colors in the industry.

Thermoset Rubber

BurkeBase Premium TS Molded Wall Base

- Vulcanized thermoset rubber to prevent shrinkage or expansion
- Molded to provide dimensional stability
- Smooth satin finish and inherent flexibility helps hide substrate irregularities
- Available in 4' lengths
- 25 standard colors

Thermoplastic Rubber

BurkeBase Rubber Wall Base
Type TP Benefits

- Heavy gauge rubber base
- Flexible formulation easily forms to curves and corners for clean installation
- Will not fade or crack
- Scuff and scratch resistant
- Available in 4' lengths and 100' seamless rolls
- 100 standard colors

Vinyl

BurkeBase Vinyl Wall Base
Type TV Benefits

- Engineered for heavy traffic and high maintenance areas
- Scuff and abrasion resistant
- Tough matte finish helps hide substrate irregularities
- Available in .080" and .125" gauges
- Available in 4' lengths and 100' seamless rolls
- 100 standard colors

- Specifications are based on averages from normal manufacturing tolerances. Such variations do not affect product performance.
- Protective chair pads are recommended under office chairs with roller casters to preserve appearance and avoid premature wear.
- As with all quality carpets, slight variation in color may occur from dye lot to dye lot.
- Backing or other materials may be changed without prior notice when shortages occur or when technological advancements provide improved product performance.
- This product is intended solely for use as an indoor floor covering and is not recommended or sold for any other purpose.
- The inherent characteristics of geometric linear patterns can result in double-dark or double-light lines at the seam and to some extent pattern run-off or bias. This is not a manufacturing defect, and as such, should be considered when selecting a modular carpet installation method.
- Cut, piles, cut and loops and tip-sheared constructions are not recommended for heavy commercial traffic, corridors or through channeled traffic. Please contact your Mannington Commercial representative for information regarding these constructions and your specific end use application.
- Please make your final selection from an actual swatch. To order samples, go to manningtoncommercial.com or call 800.241.2262 ext. 6913.
