Custom Solutions

Custom Solutions, Built to Perform

At Mannington Commercial, we've been making flooring for over a century—and helping designers create custom solutions for more than 35 years. Not every project can be solved with standard products, which is why our Custom Solutions Team exists. Our experienced designers and technical experts work directly with you to understand your vision and bring it to life with custom flooring solutions created just for your space.

What Can Be Customized?

Every project is different, which is why our Custom Solutions Team works across flooring categories to give you options that fit your vision. Whether you're adapting a running-line product or creating something entirely new, we make it simple to customize across:

Carpet (Broadloom & Modular)

Adjust colors, patterns, or textures from existing collections, or work with us to design a true custom from the ground up. Digital renderings and samples help you see your design come to life quickly.

- Running-line color or pattern modifications
- True custom designs built from scratch
- CAD renderings in 24–48 hours
- Samples in as little as 2–10 days

Luxury Vinyl Tile (LVT)

LVT can be tailored to reflect your brand identity or project theme with unique colors, patterns, logos, or insets.

- Digital print technology for extended patterns & color range
- Logos and brand marks cut with precision
- Custom color development to match palettes
- Flexible order sizes to fit project needs

Wayfinding LVT

Available with no minimum order, this option allows you to incorporate icons, messages, and custom colors to guide movement through a space.

- Standard icons & messages available
- Custom icons or text available
- Multiple formats: square, inset circle, or plank
- Pantone Matching System (PMS) color-matching for exact branding

Rugs

We can deliver rugs in custom sizes, shapes, and designs to complement any interior.

- **Custom Bound Area Rugs** – Choose any Mannington carpet, select binding type (yarn serged, leather, ADA reducer, hidden) and color, specify the desired size and shape—and we do the rest. We even include the rug pad.
- **Custom Rug Studio** – Create a custom rug from 100% New Zealand wool with no minimums. Select from pattern types—including floral, abstract, graphic, linear—apply custom colors, and order in any size you need.
- **Custom Elevate Collection** – Allows you to customize the pattern and colors of hand-tufted rugs made with 100% New Zealand wool or wool/viscose.

How the Process Works

Our Custom Solutions Team makes it simple to take a project from concept to installation. Our process is designed to make it easy to specify custom flooring while ensuring the outcome matches your vision and performs in the real world.

1. Consultation

Share your goals, inspiration, or mood board with our team. We'll discuss your vision and project requirements.

2. Design Development

Our designers create digital renderings, often within 24–48 hours, so you can quickly see how your ideas translate into flooring.

3. Sampling

Physical samples are produced in as little as 2–10 days, depending on the construction, so you can review and approve before ordering.

4. Approval & Order

Once the sample is approved, our team builds a custom "recipe" in the system to ensure accuracy and assists through the production process.

5. Production & Delivery

Custom products are typically delivered in about 8 weeks (13 weeks for wool rugs).

Why Mannington Commercial?

When you work with our Custom Solutions Team, you get more than a unique design. You gain a trusted partner who knows how to deliver custom flooring with lasting impact.

100+ Years of Experience

Our team partners with you, using our design, manufacturing, and technical expertise to ensure your flooring performs as intended in high-traffic spaces.

35+ Years of Performance

For decades, clients across industries have trusted Mannington Commercial for custom solutions that stand the test of time.

Made in the USA

Our custom products are primarily manufactured in our U.S. facilities, giving you consistent quality and dependable lead times. For wool rugs, we partner with long-standing suppliers in India, offering expanded options while maintaining the same high standards for performance and design.
