

Specification

FreLock Tabs (3x10) Specification

For Installation of Mannington's Infinity 2 & Infinity 2 MG Modular Backings

CONSTRUCTION

Double-faced adhesive membrane

Backing:	½ mil Polyester (PET) Film
Adhesive:	Solvent Acrylic
Liner:	3 mil Polyester

SPECIFICATIONS

Size:	3" x 10" (Perforated Tab)
Roll Length:	108 feet
Tabs per Roll:	130
Coverage:	With 24" x 24" modular tile: 40-45 sq. yds. (Monolithic or Quarter Turn) 30-35 sq. yds. (All other methods) With 18" x 36" or 12" x 48" modular plank: 30-35 sq. yds. (Monolithic) 25-30 sq. yds. (All other methods)

Thickness:	4 mil
SAP Order Code:	293403 – 1 Roll 293402 – 1 Carton (16 Rolls)
Shelf Life:	18 months from manufacture date on unopened containers
Moisture Limits:	Infinity 2 - No moisture testing required with FreLock Tabs using the floating installation method provided the slab meets ASTM F-710 (except where explicitly allowed by our installation instructions) including proof of the presence of an intact moisture vapor barrier per ASTM E-1745 (Class B or Better) no standing water, no free liquids present, no evidence of moisture staining, or hydrostatic pressure and a pH level that does not exceed 12. If these requirements are not met, or when installing with the double stick method the limits are 95% RH / 10 lbs. CC / 12 pH

Infinity 2 MG - No moisture testing required with FreLock Tabs using the floating installation method provided the slab has no standing water, no free liquids present, no evidence of moisture staining, or hydrostatic pressure.

Infinity 2 MG Cushion & rEvolve II- FreLock Tabs are not approved for use with these backings.

NOTE:

- No Moisture testing option is for floating installations only. Not applicable to Double Stick.
- Mannington's Universal Primer is required with all double stick installation methods.
