SUSSEX DOWNS COLLEGE

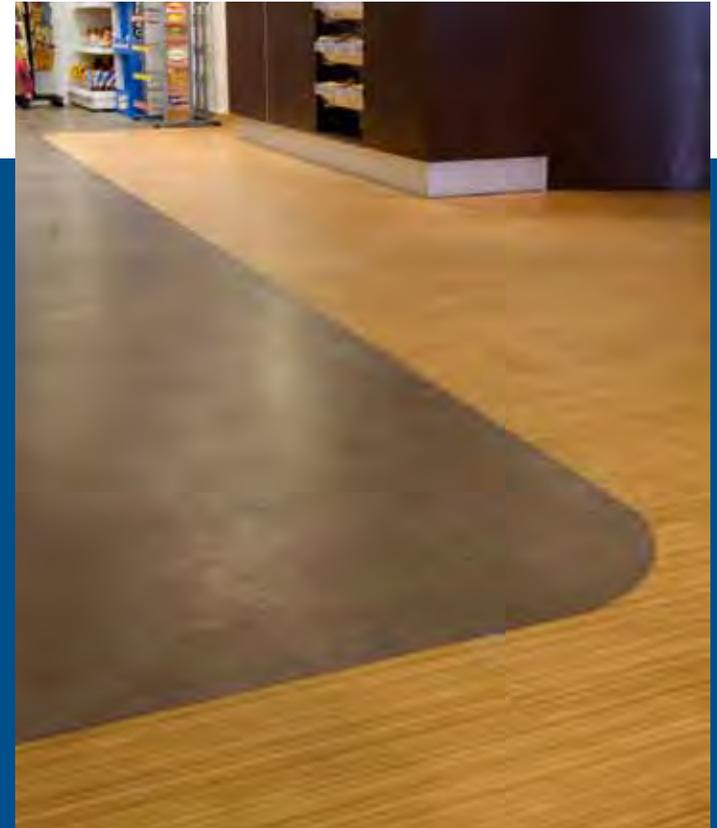

Location: Sussex

Products: Ceramic Sable - SS5S3593

Engineered Bamboo - SS5W2546

A major redevelopment project at Sussex Downs College required a robust and high quality floor for the refurbishment of its food court, shop and student catering facilities. Shopfitting specialist SME Limited, specified Amtico International for its durability and aesthetically appealing range of Spacia flooring.

SUSSEX DOWNS COLLEGE

Steve Bombroff, Managing Director at SME Limited explains: "The old facilities were poorly lit with inadequate seating and disjointed facilities. We were asked to give particular consideration to high traffic, ensuring our finishes were attractive, robust and durable. By using Spacia flooring we were able to redefine and bring together key areas of the food offer and define new seating areas. We used the same product in key areas to achieve synergy across the whole scheme. Our client and the college are delighted with the new facilities."
