Mannington®
COMMERCIAL

At Mannington Commercial, our heart lies in our craft. We make exceptional flooring products with thoughtful design and uncompromising quality. We strive to provide you with ongoing resources and sustainable solutions to support your creative vision. Because ultimately, what we are crafting is not only award-winning flooring, but a partnership.

We craft with purpose to inspire, to perform, to make a positive impact and to meet all our customers' flooring needs.

Located in Atlanta, our Design Center is a great place to learn about our products and services. Simply contact your rep to schedule a visit.

Workplaces, healthcare facilities, schools, stores, restaurants and beyond: we craft flooring solutions for every space and every need. And we do it all with the same, sole purpose: to support the highest quality experience in the spaces that matter to you and the people who use them.

Flooring to support healing, learning,

working, shopping, entertaining & more

Crafted daily:

- > Modular Carpet & Broadloom
- > LVT & Non-vinyl Resilient Tile
- > Heterogeneous & Homogeneous Sheet
- > Rubber Tile & Sheet
- > Wall Base, Stair Systems, Moldings & Finishing Accessories

We bring you a vast array of flooring options designed and engineered by people who take pride in their craft – because we know that you take pride in yours.

A Company with Integrity

Mannington Commercial offers more than 100 years of expertise in the design, engineering and logistics of flooring. When you partner with us, you draw on our passion for making flooring the right way and doing business the right way. We deliver long-term, comprehensive solutions across every type of flooring, with personalized support to help you meet your project goals. We believe that your success is our success.

Our Values:

- > Care
- > Do the Right Thing
- > Work Hard, Play Hard
- > Control Our Own Destiny

Do the Right Thing

Our family-owned, privately held company has a culture of caring about our clients, about each other and about our impact on the world around us. And because we care, we do the right thing: we keep our word, and we conduct our business with social and environmental responsibility.

American Made

All of our carpet, resilient sheet, rubber and more than 90% of our LVT is made in the USA. When you choose our flooring, you support local economies and receive products of higher quality. Plus, you get a faster turnaround, with no price increases due to higher tariffs or overseas shipping costs.

Dedicated to Your Success

All of us who make up the Mannington Commercial family bring the highest level of skill and care to the flooring we create and the solutions we provide. We are passionate about what we do, not only because we are dedicated to our craft, but because we are dedicated to helping you elevate your work.

Crafted to Inspire

Across every type of flooring, we craft award-winning designs that inspire great spaces. Each product is born from an innovative design process and a deep understanding of the needs of specific environments. The result is flooring that fuels your creativity through form as well as function.

06

Good Design Accounts for Everything

What real-world solutions will our product offer? Will it provide not only beauty but the right kind of performance to fit the purpose of the space? Will it meet the demands of busy, challenging environments? We consider every detail in our design process and continually incorporate feedback from clients, so that your experience with our flooring is intuitive and inspiring.

Being Authentic & Original

Our experiential design process and insightful design collaborations are all geared toward helping you create unique experiences in your spaces. When you use our flooring, you get original, authentically crafted designs that bring you new perspectives to explore in your work.

Quality Is Our Priority

Achieving the level of quality that we demand means reaching much deeper than surface-level appearance. It means using quality materials, adhering to meticulous production methods and delivering long-term performance. We insist on a high level of quality in our products, because that is how we help you craft the highest quality space.

07

Experiential Design

We create our designs by going out into the world and experiencing what inspires us. We live the story, then we take what we see, feel and learn and transform it into unique designs. Through this process, we bring you flooring that crafts meaningful experiences in your spaces.

For The Portland Project, we traveled across Oregon, exploring not only the land but our own perceptions of it. Our designs emerged from that feeling of never knowing what beautiful viewpoint might lie just around the bend.

The Portland Project

The Portland Project began with a road trip: with disconnecting from the daily grind and restoring our attention to the world around us. With letting our minds wander as well as our feet, in full confidence that new patterns would be revealed, unearthed, created.

Resulting in a coordinating collection of modular carpet and LVT, The Portland Project is not a literal interpretation of what we saw in our travel. Instead, it evokes our experiences of wandering, wonder and discovery. The collection draws on the adventurous human spirit that brings us closer to our environment.

HOW TO BE AN EXPLORER:

1. ALWAYS BE PRESENT
(NOTICE THE EARTH BENEATH YOUR FEET.)
2. CONTEMPLATE EVERYTHING ALIVE.
3. ALL THINGS ARE INTERESTING. LOOK CLOSELY.
4. CHANGE COURSE OFTEN.
5. OBSERVE FOR LONG PERIODS OF TIME (AND SHORT ONES.)
6. PAY ATTENTION TO THE STORIES HAPPENING AROUND YOU.
7. FIND PATTERNS, MAKE CONNECTIONS
8. RECORD YOUR FINDINGS IN DIFFERENT WAYS.
9. INCORPORATE THE UNDEFINED.
10. NOTICE MOVEMENT
11. CREATE PERSONAL CONNECTIONS TO YOUR ENVIRONMENT. TALK TO
12. TRACE THINGS BACK TO THEIR ROOTS
13. USE ALL OF YOUR SENSES

Coordinating modular carpet and LVT from The Portland Project offer striated movement, luxurious textures and glimmers of metallic effects. A unique invitation to wonder and wander – to make your own path.

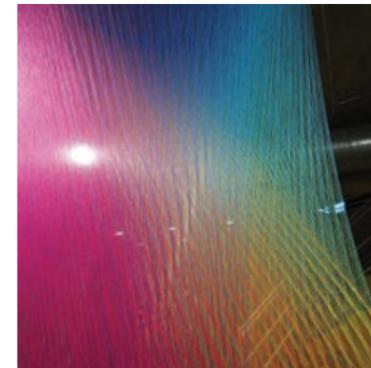

The Portland Project: Moraine LVT - Twinflower P210, Summit Modular - Native 15906

Innovation through Collaboration

We work closely with leading artists, architects and designers to drive our innovations in flooring design, creating products that deliver new insights and fresh perspectives to inspire your own design innovations.

Moiré Collection

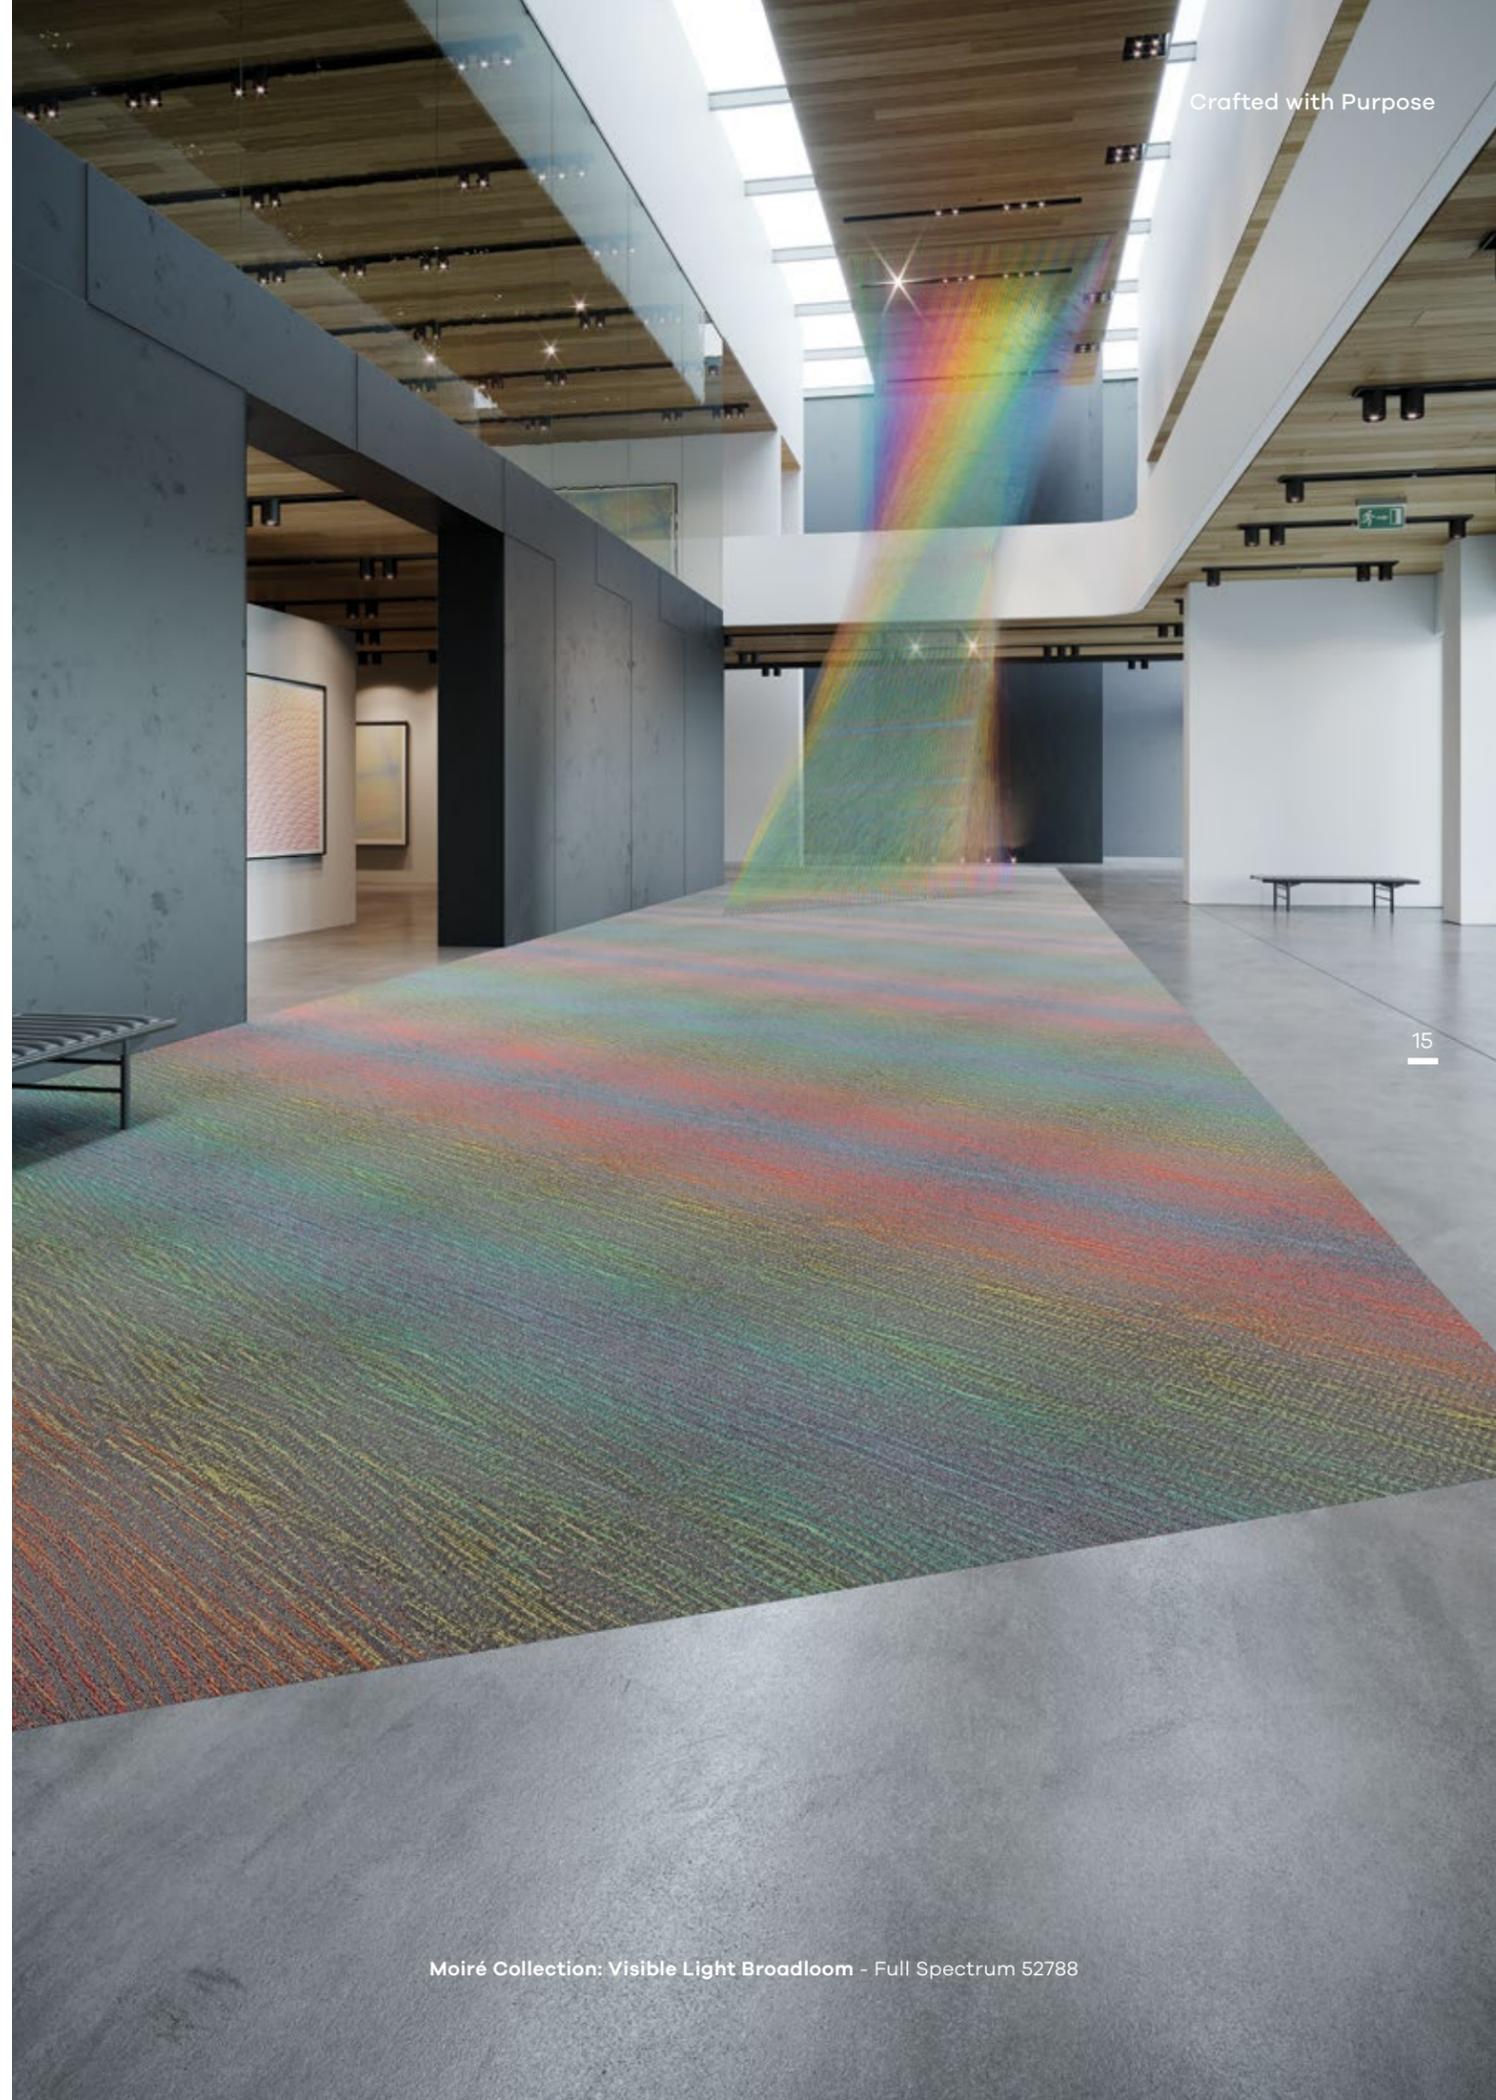

We designed the Moiré Collection in collaboration with renowned artist Gabriel Dawe, drawing inspiration from Dawe's large-scale art installations. In his work, Dawe uses miles of thread in delicate color gradations to create shapes as ethereal as rays of light.

For the collection, Dawe and our design team explored the moiré effect, which Dawe describes as inherent to the experience of his installations. A study of moiré in multiple scales, the Moiré Collection combines dynamic patterning and subtly gradated colors to bring a new sense of light and space to broadloom and modular carpet.

Vice President of Design Roby Isaac and the Mannington Commercial Design Studio collaborated closely with Gabriel Dawe to develop Moiré, translating Dawe's artistic vision into an inspiring flooring collection.

Designed in collaboration with artist Gabriel Dawe, modular carpet and broadloom from the Moiré Collection captures the creative possibility of the moiré effect, combining artistic energy with a delicate use of color.

Moiré Collection: Visible Light Broadloom - Full Spectrum 52788

A Heritage of Quality

At Mannington Commercial, we bring our designs to life with the utmost care and attention to detail, drawing on more than 100 years of manufacturing expertise and a company-wide commitment to delivering the highest quality products.

Skillfully Made. Perfected with Pride.

We approach making flooring as a craft, choosing high-quality materials and constantly perfecting our processes in order to create products that are true solutions for you. We are meticulous in our work because we have a century-old legacy of quality to uphold, and because we care about the results that you get with our flooring.

With manufacturing plants certified to ISO 9001 standards, careful ingredient supply chain management, industry-leading technologies and comprehensive warranties, our flooring is crafted to add not only visual beauty but time-tested quality to your spaces.

Craftsmanship is our passion at Mannington Commercial. Each employee in our company takes pride in their work and in the solutions they provide to you. By delivering quality products and services, we support your success.

Crafted to Perform

We craft flooring that does more than meet a spec. Our products are expertly engineered to deliver complete performance solutions for your spaces. Across every product type, you get a floor that works harder and smarter.

We Know Soft Surface & Hard Surface

Our solutions aren't limited to just a few types of flooring or cherry-picked performance attributes. We offer a range of advanced technologies across broadloom, modular carpet, LVT, resilient sheet and rubber sheet and tile, so you can have the optimal flooring for any set of performance needs and the most challenging environmental demands.

Fact-based Solutions

We don't simply say we make a superior product—we back up our claims with comprehensive product and finish warranties, third-party testing and evidence-based design to ensure that your flooring performs like we say it will.

Comprehensive Engineering

Will the product not only last longer, but be easier and more economical to maintain? Easier to install? Can it help the client overcome challenges with the project or site? Can it help people be more comfortable, safer and well-supported by the space? We engineer every facet of our products to deliver on these goals and more.

"My consulting firm has helped many organizations develop carpet specifications that deliver the optimal performance for their needs, all based on verifiable, independent testing. Carpet from Mannington Commercial consistently excels in independent tests and hits all the criteria my clients need. It's a product my clients can specify with confidence."

Pamela Bowe, MBA
President, BOWE Company

Carpet Modular & Broadloom

With industry-leading fiber systems and superior manufacturing, our vast array of carpet styles look better and last up to 75% longer than any other carpet in the marketplace.

Proven by Third-party Testing

All of our carpet products are third-party tested and proven to exceed industry standards in appearance retention, texture retention, fire safety factors and static generation, and our modular carpet exceeds industry standards in dimensional stability – so you can be sure that the carpet you specify will perform for years to come.

Backing Advantages

- > Infinity® 2 Modular backing provides superior performance with a moisture barrier.
- > rEvolve® is a vinyl alternative modular backing with high performance and a moisture barrier.
- > Integra HP® is a high-performance broadloom backing with an impermeable moisture barrier.
- > UltraBac® RE broadloom backing offers strong performance and excellent environmental benefits.
- > Infinity® 2 MG backing allows for installations in areas with up to 99% RH.
- > We offer limited lifetime wick-back warranties.

Easier to Maintain

- > Antron® nylon features a unique, 4-hole, hollow-filament shape for exceptional soil concealment and cleanability.
- > XGUARD® Stain Resistant Technology provides long-term stain resistance for our space dye products.
- > ColorSafe® Bleach Resistant Technology resists color fade-out from bleach spills for our space dye products.
- > Moisture-barrier backings are built to withstand aggressive wet cleanings.

Antron® Fiber Advantage

Antron® type 6,6 solution-dyed nylon is engineered with stain and soil protection, and offers long-lasting texture retention. Antron® fiber is designed for a more effective, longer-lasting clean, helping reduce your total cost of ownership and contributing to a cleaner facility.

- > Lasts up to 75% longer
- > Up to 2x better texture retention
- > Up to 3x better fade resistance
- > Typically applied stain and soil resistance allows up to 10x better stain resistance and 65% better soil resistance

TARR

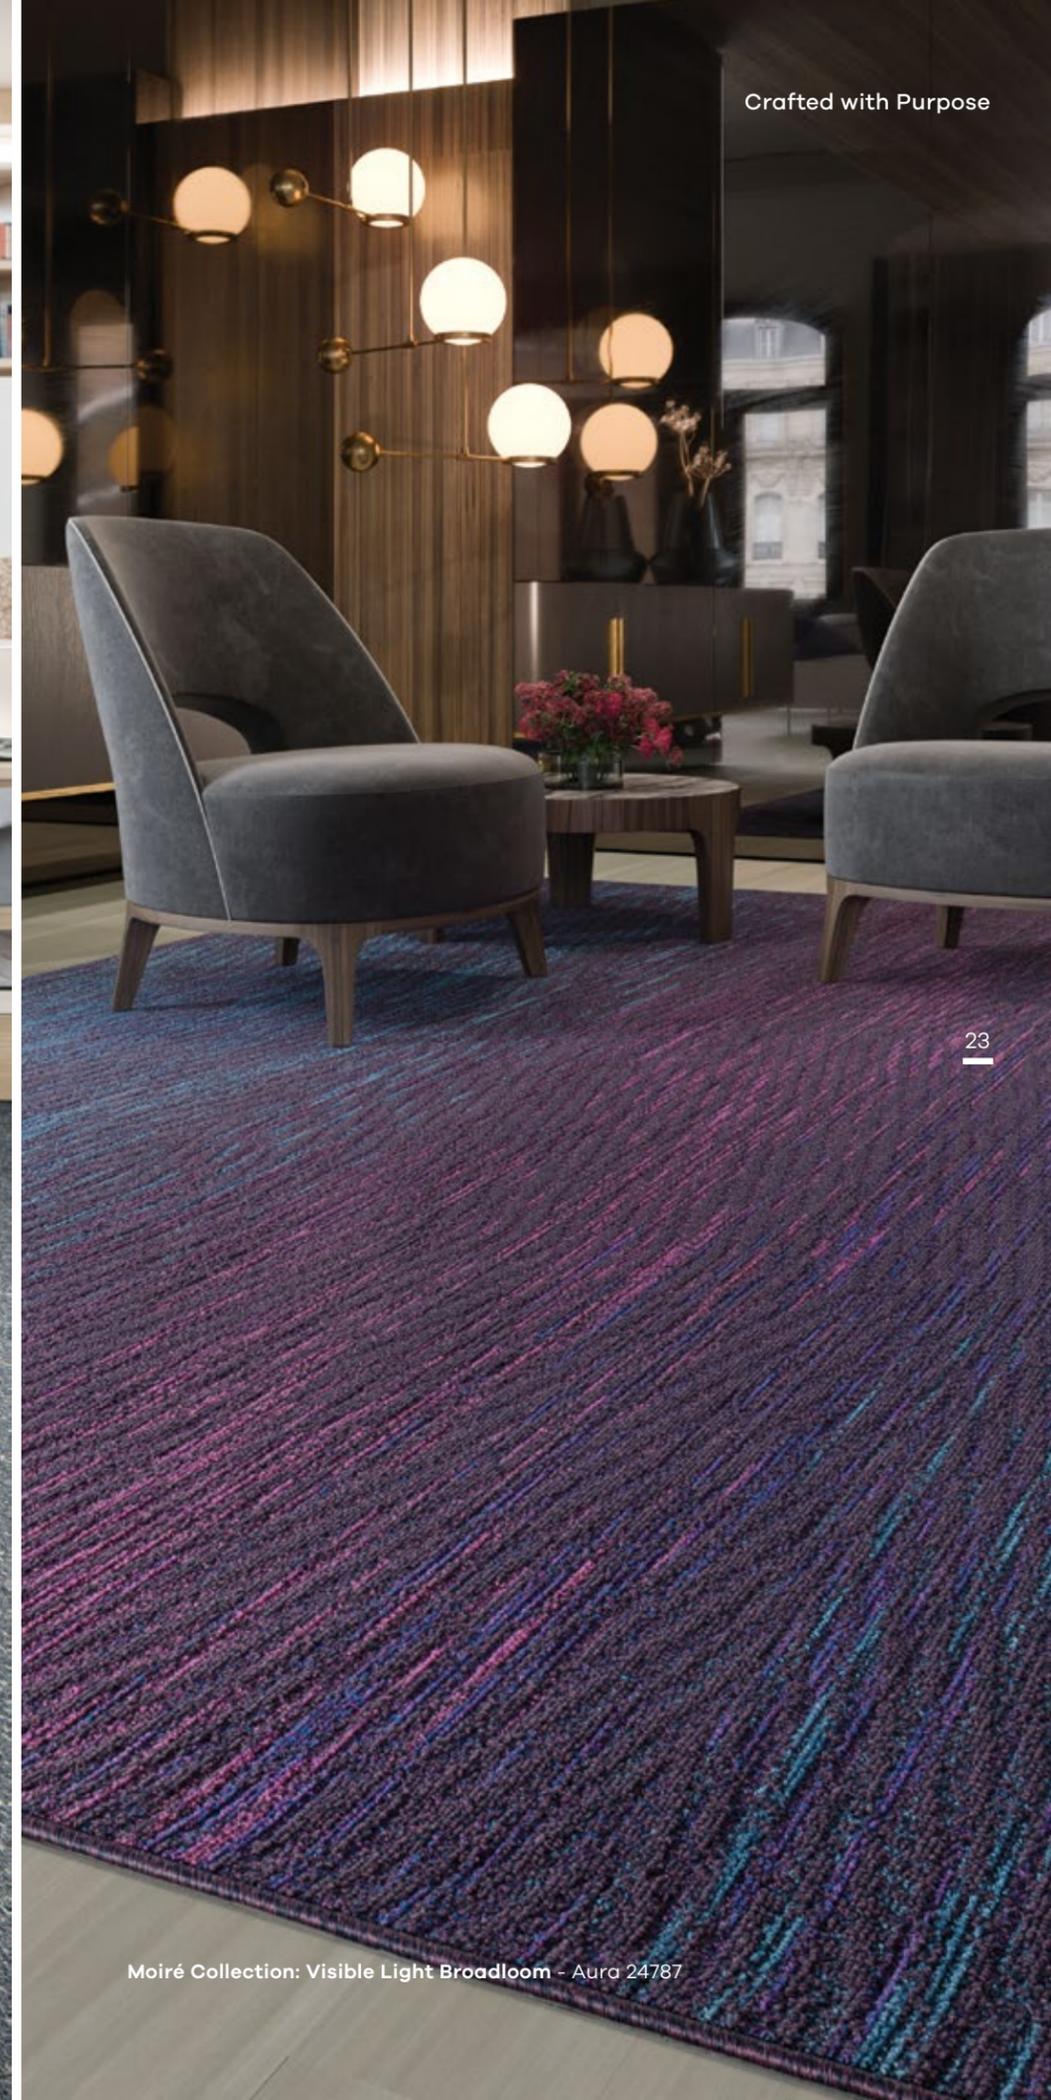

- > All Mannington Commercial carpets are made with a minimum 3.0 TARR (Texture Appearance Retention Rating), meaning any carpet you specify will be able to withstand heavy commercial traffic. The TARR on our carpets is tested and verified by an independent lab.

Sustainable Solutions

- > All of our carpets have EPDs and HPDs.
- > rEvolve® is a vinyl alternative modular backing containing a minimum of 35% recycled content and certified NSF/ANSI 140 Platinum.
- > UltraBac® RE broadloom backing contains a minimum of 10% post-consumer recycled content and is certified NSF/ANSI 140 Platinum.
- > ECONYL® type 6 solution-dyed nylon is 100% regenerated from pre- and post-consumer waste.

Entryway Systems

- > Our high-performance entryway systems are the ideal way to extend the life of your flooring as well as enhance the safety and cleanliness of your entire facility. Choose from a variety of styles to fit any interior aesthetic.

Spin Collection: RPM Modular - Electronic 14824
Mannington Select Collection: Stone LVT - Celestial Moonrock MSC230

Exchange Collection: Relay Modular - Operator 14148
Connected Collection: Social Modular - Linked 14199

Hard Surface Products

Our hard surface flooring offers a perfect marriage of science and art, delivering the highest level of durability and cleanability across the broadest range of visuals, options and sizes in the industry.

Proven by Third-party Testing

Our hard surface products are third-party tested and proven to exceed industry standards, including resistance to slipping, indentation, fading from light and deterioration from chemicals, ensuring long-lasting beauty, cleanability and safety.

LVT & Non-vinyl Resilient Tile

- > Quantum Guard® technologies ensure the industry's highest scratch resistance, ease of cleaning and appearance retention.
- > Most products are available with QuickStix® pre-applied adhesive, which reduces installation time and suits subfloors with up to 99% RH.
- > Products with FloorArmor® are waterproof and offer a 68 IIC rating with sound abatement pad.

Resilient Sheet

- > Quantum Guard® technologies are engineered for industry-leading ease of cleaning and advanced resistance to abrasions and stains.
- > A variety of heterogeneous, homogeneous, slip resistant and heterogeneous light constructions ensure the best product for any application.
- > Seam+Advantage allows chemical welding of the seams between sheet and carpet, providing a seamless transition that is hygienic and safe.
- > Weld rods are available in more than 100 colors for beautifully seamless spaces.

Rubber Tile & Sheet

- > Our superior recipe with proper curing allows our rubber products to look better and be easier to maintain long-term.
- > Carefully engineered profiles provide better acoustics and greater comfort underfoot.
- > Our rubber never needs to be waxed, thanks to a proprietary combination of inherent waxes.

Accessories

- > Fusion® rubber transition strip provides a nearly seamless transition between carpet and hard surface flooring. A variety of other performance transition strips and moldings are also available.
- > Multiple types of wall base available in up to 100 colors allow for the perfect match in any space.
- > Our wide range of stair systems meet guidelines established by the ADA.

Sustainable Solutions

- > All of our hard surface flooring is FloorScore® Certified and features an industry-wide third-party certified Type III EPD.
- > The Cirro Collection features non-vinyl planks and tiles that are made without PVC or phthalates and contain recycled content.
- > Many of our LVT products contain rapidly renewable resource content, and our resilient sheet products have a non-ortho phthalate construction.

Largest Product Offering

- > With the industry's largest portfolio of hard surface flooring, we are able to bring you an array of solutions for every type of space and any combination of performance needs.

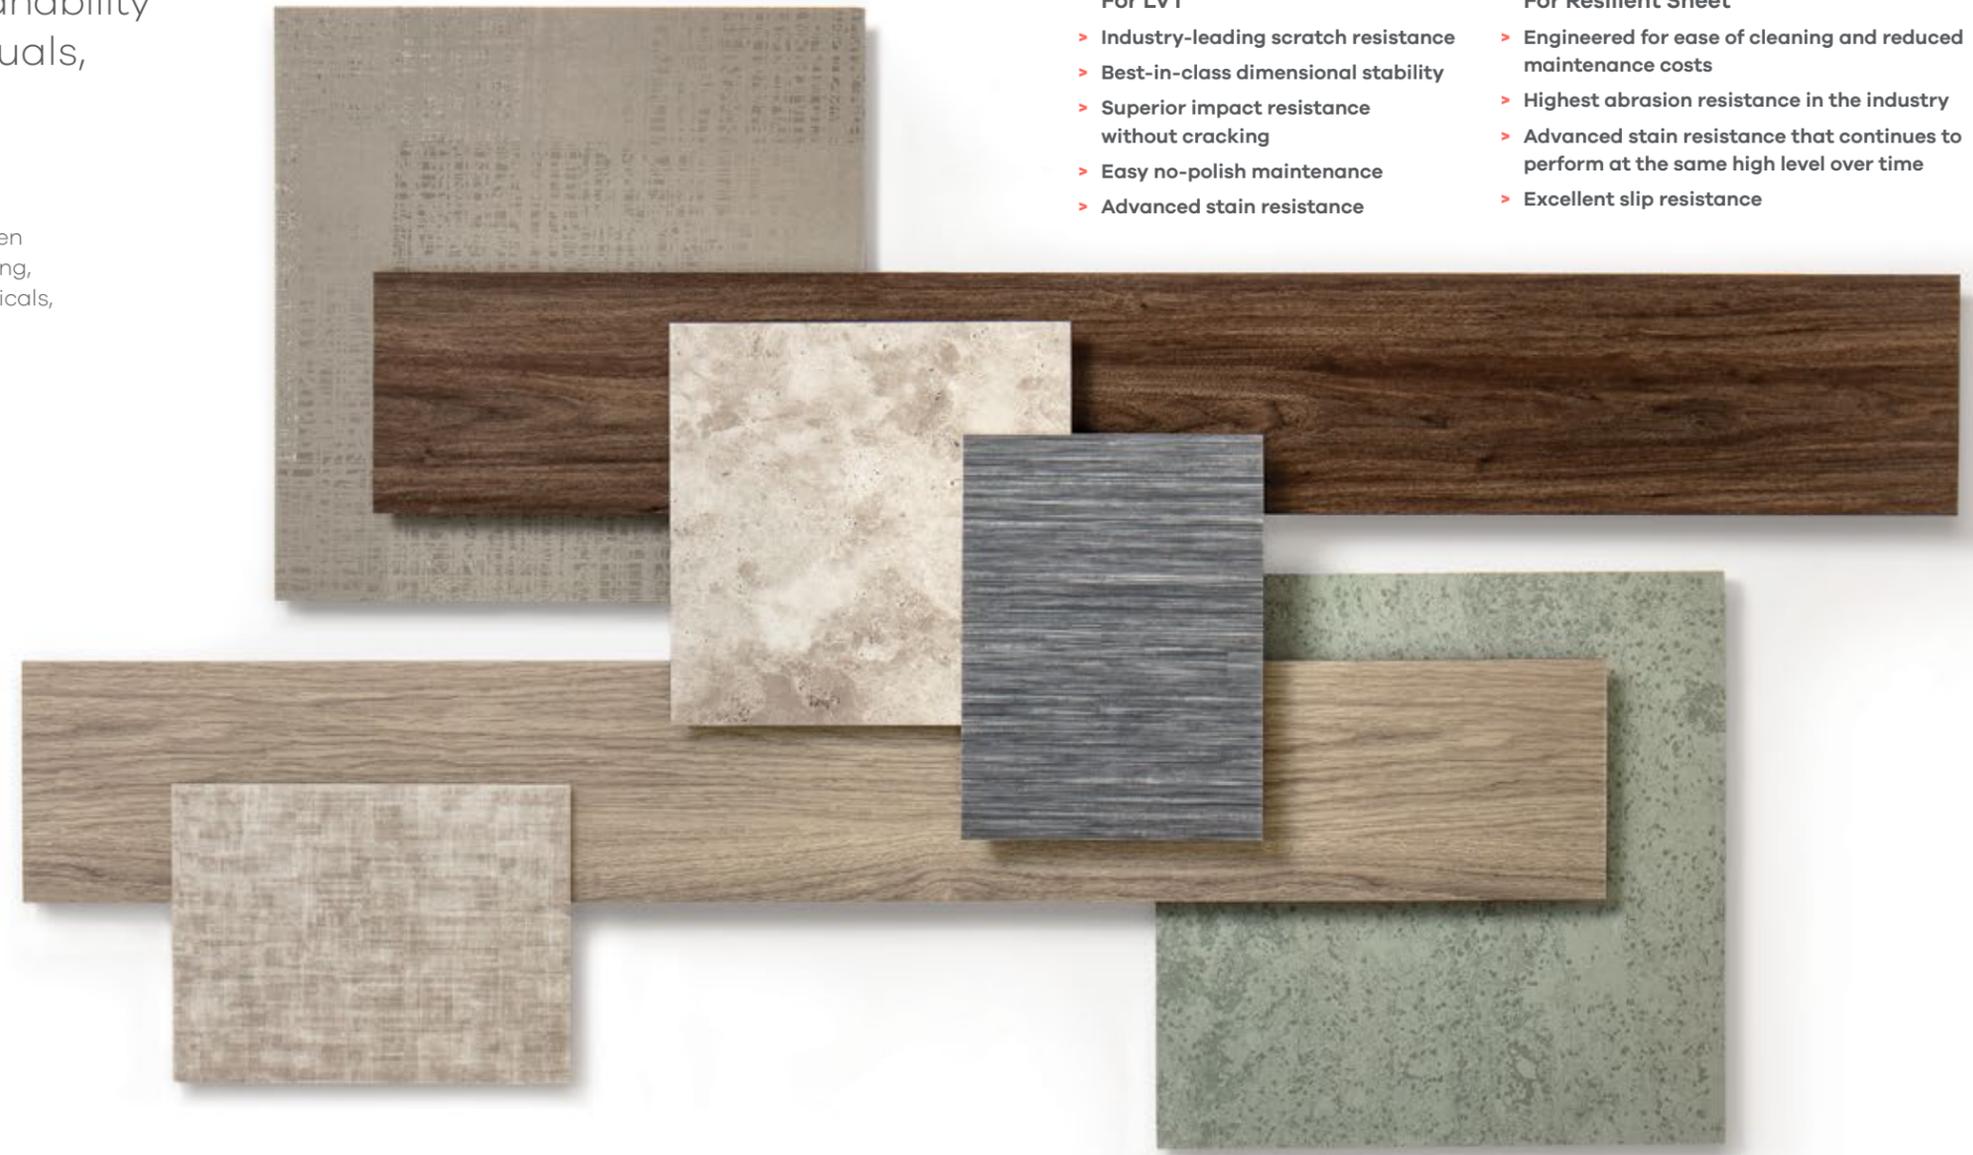

We created Quantum Guard Elite® to be the ultimate solution for all aspects of performance in LVT and resilient sheet flooring.

For LVT

- > Industry-leading scratch resistance
- > Best-in-class dimensional stability
- > Superior impact resistance without cracking
- > Easy no-polish maintenance
- > Advanced stain resistance

For Resilient Sheet

- > Engineered for ease of cleaning and reduced maintenance costs
- > Highest abrasion resistance in the industry
- > Advanced stain resistance that continues to perform at the same high level over time
- > Excellent slip resistance

Case Study:

Johns Hopkins Health System

To specify flooring at JHHS, their Lead Interior Designer took an evidence based approach, testing 15 flooring products to see which ones lived up to their claims. Our Paradigm Collection rose to the top.

Challenge

"We're very heavy duty here," says Teri Bennett, the JHHS Lead Interior Designer. "In some of the main areas of the Hospital, there can be 20,000 people walking through in a day." To determine which flooring products could truly meet the needs of JHHS, Bennett developed and conducted the Johns Hopkins Sustainable Flooring Test. She had 15 flooring products installed in one of the busiest corridors of the Hospital. Over the course of 3 months, the flooring was subjected to heavy daily traffic and cleaning. Bennett analyzed the floors' performance, safety and ease of maintenance.

Location:
Baltimore, MD, USA

Facility Type:
Healthcare

Products:
Paradigm Collection
Resilient Sheet

Certifications:
EPD, FloorScore®

Solution

Throughout the test, "Paradigm by Mannington Commercial did beautifully," says Bennett. "It did so well that it is pretty much our first choice for any sheet vinyl project." Bennett has since used Paradigm across JHHS, including the Skip Viragh Outpatient Building, the Johns Hopkins Breast Center and many office suites. Bennett confirms, "Paradigm has lived up to its test performance."

Benefits

- > Quantum Guard Elite® technology provides industry-leading ease of cleaning and long-term performance
- > 3 abstract patterns in a soothing palette give spaces a warm, high-end aesthetic
- > May contribute to multiple LEED credits

"I am consistently told by the Environmental Care team that Paradigm is the easiest to maintain of all the new flooring I've installed. It has lived up to its test performance. Paradigm allows me to give a hospitality look and aesthetic, but in a product that I can keep clean."

Teri Bennett, RN, CHID, EDAC
Lead Interior Designer
Johns Hopkins Health System

Intersect Resilient Sheet - Model PAR106

Case Study:

Large Telecom Company

When a leading telecommunications firm sought to renovate one of their workplaces to fit a new generation of professionals, our carpet and LVT delivered the style and performance they wanted, on a tight timeline.

Challenge

To help meet the needs of a younger generation of employees, a leading telecommunications company sought to renovate one of their workplaces into a sophisticated environment that fostered innovation. They wanted a space with a hip look and feel, and they also needed the renovation done quickly to reduce downtime. The chosen flooring products also had to suit the raised access flooring system being used in the space, which required an LVT that was thicker than standard products.

Location:
Dallas, TX, USA

Facility Type:
Workplace

Size:
59,290 ft²

Products:
Access Collection LVT
Divergent Collection Modular

Certifications:
EPD, HPD, FloorScore®

Solution

Mannington Commercial offered coordinating modular carpet and LVT styles that fit the younger, dynamic culture of the workplace, and all styles were available on a tight timeline. LVT from the Access Collection features a 5 mm thickness that met the flooring system's requirements and also eliminated the need for transition strips to carpet, enhancing the sophisticated look.

Benefits

- > High-performance carpet tile with cutting-edge style
- > LVT with durable 20 mil wear layer, 5 mm thickness that eliminates need for transition strips
- > Quick turnaround on both soft surface and hard surface

"From beginning to end, their team outdid themselves to support us and our architect. The carpet and LVT met all our goals in terms of cost, looks, choices and durability. I am looking forward to my next project featuring Mannington Commercial flooring products."

*Sr. Manager Corporate Real Estate + Design & Construction
at a large telecommunications company based in Dallas*

Cheng Library

To support a passion for learning, William Paterson University's Dean of the Library wanted to create spaces as vibrant, creative and hard-working as the students. Our variety of flooring products and personalized solutions made his goals reality.

Challenge

Dr. Edward Owusu-Ansah, Dean of the Library at WPU, sought to redesign the campus's Cheng Library to become an engaging, exciting place where students would want to spend more time. "We are a majority minority institution, and a lot of our students are first-generation college students," says Owusu-Ansah. "Our dedication to supporting them has always been here." His vision for the library was to have a place that extended and enhanced that support. "We wanted vibrant color, comfort, endurance and to have everything work together – and fit our budget."

Solution

"Mannington Commercial brought us a variety of products that suited a variety of needs," says Owusu-Ansah. "With all of the flooring, we got a vibrant color scheme in products that mixed together perfectly. Now students come to the library to socialize and to work. They tell us every day that they love the library."

Benefits

- > Coordinating hard surface and carpet in engaging styles bring comfort and creativity
- > LVT with Quantum Guard Elite® technology offers superior durability and ease of cleaning
- > Carpet with Antron® fiber gives unbeatable performance and stain resistance
- > Personal service ensures that the flooring meets all of the goals of a project

Crafted to Make a Positive Impact

As a fifth generation, family-owned company, we know what it means to care about people, to care about the ingredients that go into our products and to care about the impact we have on the world around us. We have built social and environmental responsibility into our products and services not only because it's important to you, but because it's the right thing to do.

Dedication to Healthy Products

In every product we manufacture and develop, the aesthetics and performance are not our only concern. What's just as important is how that product impacts the environment and supports a healthy space. That is why we maintain high standards for our ingredients and manufacturing, making flooring products that may contribute to multiple LEED credits as well as a variety of other healthy building program requirements.

Being Transparent

We provide EPDs and HPDs for a wide range of our carpet and hard surface products, and all of our certifications are available through mindful MATERIALS and manningtoncommercial.com. That way, it is easy for you to get the information you need to make informed product choices, as well as the documentation you need for LEED or other programs.

Supporting Our Environment

Everyone at Mannington Commercial is deeply involved in our local communities, and operating our facilities with environmental responsibility is just one of the ways that we support the wellbeing of the places we call home.

We are proud to create products that contain pre- and post-consumer recycled materials, including manufacturing surplus in our modular carpet backings and LVT as well as reclaimed nylon fishing nets in some of our carpet fiber.

Inspired by Ron Clark Academy's drive to create vibrant, imaginative learning spaces, we donated flooring for their entire campus and provided a \$25,000 donation to support the construction of a new building.

We Support Healthy Spaces

We are dedicated to designing and engineering products that help you support the health and wellbeing of people in your spaces. Through our product transparency, you can also ensure that you meet the sustainability goals of your projects.

Across hard surface and soft surface flooring, Mannington Commercial provides more product choices that support healthy environments, enabling you to craft unique spaces that contribute to people's wellbeing.

Certified to Support Indoor Air Quality

All of our carpet products pass CRI Green Label Plus® certification for low VOC emissions. All of our hard surface flooring is FloorScore® certified to meet the indoor air quality requirements of LEED, the Collaborative for High Performance Schools, the Green Guide for Health Care and other healthy building programs.

We also offer vinyl-alternative products, including Cirro, a collection of non-vinyl resilient plank and tile, and a range of rubber flooring styles, including sheet and tile. Our modular carpet and resilient sheet products also feature non-ortho phthalate constructions.

Transparency of Ingredients and Impact

We offer EPDs and HPDs on a wide range of our products to help you assess environmental and health impacts. EPDs are available for our modular carpet and Integra HP® broadloom, our resilient sheet and rubber tile, and many of our LVT products. HPDs are available for our modular carpet, Integra HP® and UltraBac® RE broadloom products. Our rEvolve® modular carpet backing also features a Declare label.

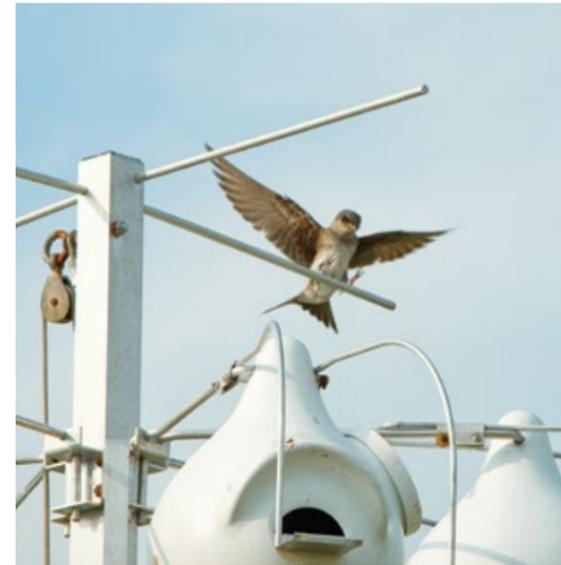

May Contribute to Multiple LEED credits

We have been a member of the US Green Building Council since 1998. This nonprofit coalition of building industry companies and organizations developed LEED, the world's most widely used green building rating system.

Products from Mannington Commercial may contribute to multiple LEED credits, and we have made it easy to get the documentation you need for the LEED process: simply visit our website or the mindful MATERIALS website to locate all of our products' certifications and transparency documents.

Environmentally Responsible Operations

Everything we touch has a ripple effect, reaching out past the immediate impact of our actions. By running our facilities responsibly, we are able to make a greater contribution to the wellbeing of our local communities and far beyond them.

Reducing Our Footprint

We power our New Jersey facilities with the help of more than 3.3 acres of solar voltaic arrays, one of the largest in the flooring industry. The solar arrays generate nearly 1,000,000 kWh a year of emission free, renewable electricity.

We have reduced water consumption by 35% at our Georgia facilities. Much of this progress is due to improved dyeing methodologies. Other actions included converting areas of mowed lawn to natural landscaping and wildlife habitats.

ISO 14001 Operations

We have been adhering to conservation-minded operations by running ISO 14001 registered plants since 2004, giving us a way to continually improve our environmental impact. We began with our inlaid sheet operations and have extended to our cushion sheet, carpet and LVT operations.

With new goals set annually, we have already used ISO 14001 to help reduce our energy use and waste, increase recycling streams and develop transparency declarations for our carpet products.

Supporting Wildlife

In the mid-1980s, we began attracting migrating birds called Purple Martins to our New Jersey manufacturing facilities as a natural alternative to the use of pesticides. The solution worked, and our employees continue to be engaged in tracking the birds and managing their housing.

We also maintain honeybee hives at two of our facilities, showing how an industrial enterprise can coexist with – and positively contribute to – the agricultural and farming community.

Stewards of the Environment

With external groups like the US Fish and Wildlife Service, Partnership for the Delaware Estuary, New Jersey Audubon Society and local schools, we have planted thousands of native shrubs and trees alongside the wetlands that neighbor our New Jersey facilities.

By planting these riparian buffers, we not only help control erosion – we established areas of shrub/scrub habitat that provide shelter for a variety of valuable bird species and wildlife.

Crafted to Serve Your Needs

We have crafted our entire company to make the complex simple when it comes to flooring. As your partner, we deliver a completely streamlined solution for selecting, installing and maintaining innovative flooring for all of your applications.

Pattern: Polygon Key AR0D8501M

The Exceptional Versatility of Amtico

Our Amtico Signature Collection gives you endless flooring design possibilities and unrivaled performance, with more than 160 LVT styles in 13 running-line sizes. Use our online visualization tool to create unique flooring layouts with Amtico styles, or let us craft a completely custom LVT visual to suit your space. If you can imagine it, we can create it.

Features

- > 166 innovative styles of Wood, Stone and Abstract LVT
- > Up to 13 running-line plank and tile sizes
- > More than 25 Signature Layouts offer stunning flooring designs using the Amtico Signature Collection in unique shapes and sizes
- > Experiment with layouts using our online visualizer and download CAD-ready files
- > Let us create a completely custom LVT for you, designed and produced in the United States

Design Solutions

Our Design Solutions team offers a full-service floor design program called FloorMaps, in which we provide you with custom flooring layouts, from concept to installation plan, for one room or an entire facility. With FloorMaps, you can leverage our floor design expertise to easily achieve your goals for any space. Simply contact us to get started.

Deliverables

- > 2D bird's-eye view of layout patterns for your spaces
- > 2D installation diagrams based on your floor plan
- > 3D room scenes of your products in your layout patterns

Your Partner in Flooring

We offer a consultative relationship based on fully understanding your needs and challenges. That means listening to you and helping you choose the right solutions for your specific projects. With our extensive range of product types and expertise, you get perfectly fit-for-purpose flooring every time.

Helping You Achieve Your Vision

Whether you need custom LVT, a 15-day turnaround on a resilient sheet product that isn't in stock, coordinating carpet and hard surface flooring for a high-moisture slab, or all of the above—we can make it happen. And we can send it all to your site on one truck, with one technician to guide the installation of every product.

We want you to be completely happy when you do business with us. Just as important, we want you and the people who will use the space to be completely happy with the floor.

When You Need It Now

Our Xpress program gets you high-performance, coordinating LVT, carpet, resilient sheet and entryway systems on a tight timeline. The wide range of styles, aesthetics, price points and colors ensures that there is something just right for every installation. With Xpress, you can craft the spaces you want in the time frame you need—simply contact your rep to get started, or call us at **800.241.2262**.
