### Material Health as a Measure of Performance

For Mannington Commercial, material choices are inseparable from performance. We believe flooring should do more than last. It should support healthier spaces for people, reduce impact on the planet, and meet higher standards of transparency and safety. By holding every component to rigorous benchmarks, we craft our products to deliver performance you can trust from the inside out.

**\* Over 95% of Mannington's LVT is made in the USA at our Madison, GA facility. Please review the product specification sheet for your chosen LVT at [www.manningtoncommercial.com](http://www.manningtoncommercial.com) or contact Mannington's Technical Service Department at [technicalservice.commercial@mannington.com](mailto:technicalservice.commercial@mannington.com) or 1-800-241-2262, option 3 for information on the manufacturing locations of our various LVT collections.**

*Green Globes® is a science-based, three-in-one whole building certification system that evaluates the environmental sustainability, health & wellness, and resilience of all types of commercial real estate. Green Globes certification is designed to allow building owners and managers to select which sustainability features best fit their building and occupants, achieving the most sustainable outcomes based on a building's type, location, budget, and occupancy needs.*
