**Case Study:**

# Brothers

With outstanding design in hardworking LVT, Spacia answered the needs of Brothers' Mall of Scandinavia renovation. Spacia offers striking style in wood, stone and abstract visuals with versatile plank and tile formats.

## Challenge

Brothers wanted to create a sophisticated yet welcoming space as part of their retail store renovations at the Mall of Scandinavia.

## Solution

For the new concept, Brothers chose an abstract pattern LVT from the Spacia Collection—a style in a shade of grey that mimics stone or concrete tile. The store became bright and inviting both for customers and staff. Easy to care for, the Spacia Collection was chosen as it is also quick to specify and easy to install: a simple solution to complex demands.

## Benefits

- > LVT with Quantum Guard Elite® technology offers superior durability and ease of cleaning
- > Spacia Collection LVT is as versatile as it is hard-working, with a variety of wood, stone and abstract designs in multiple formats that allow for creative expression
- > Spacia Collection LVT features a limited 15 year commercial warranty as well as a limited 15 year Quantum Guard Elite® wear warranty
