Smooth Transitions

Uninterrupted LVT is thick enough to provide a seamless transition to carpet without the use of transition strips. This ensures a seamless, cohesive look in spaces with multiple flooring types, and with Mannington Commercial's wide array of visually stunning carpet coordinates, design possibilities are only limited by imagination.

- No transition strip needed between Uninterrupted LVT and carpet, creating a seamless, cohesive look

- Wood and stone visuals coordinate beautifully with Mannington Commercial's range of carpet collections

- Features Quantum Guard Elite® technology for best-in-class performance and durability

Uninterrupted Collection Coordinates

Uninterrupted LVT is designed to pair beautifully with a wide range of our collections, all while eliminating the need for transition strips to carpet. Uninterrupted's versatile wood and stone visuals work with styles from classic to contemporary, and palettes from warm to cool. Without the visual break of a transition between the LVT and carpet, you can use the right type of flooring in each area of a space while maintaining a coherent design.

QUANTUM GUARD®
## *elite*

Success Is in Our Science

Introducing an advancement in our proven Quantum Guard technology: Quantum Guard Elite. This patent pending technology provides the ultimate solution for all aspects of LVT performance.

- Highest scratch resistance in the industry
- Engineered for best-in-class dimensional stability
- Superior impact resistance
- Cuts cleanly for highest quality installation
- Easy no-polish maintenance significantly reduces overall life cycle cost and total cost of ownership
- Advanced stain resistance

Complete Multi-Layered Protection

Quantum Guard Elite combines a hard wear layer and a flexible wear layer for superior durability with the added protection of our proprietary aluminum oxide technology.
