Sample Installation

The Spin Collection can be installed in a variety of layouts to suit your design needs. Channel, Disc and RPM are larger patterns available in 12" x 48" planks and the same colorways, while Equalizer is a textural coordinate available in 24" x 24" tiles and complementary colorways. Define areas of activity in a space by using any of the styles in tandem, or by mixing colorways within a style – or even across styles. Here we present just one layout possibility with the Spin Collection.

Spin Coordinates

Our flooring integrates seamlessly across product types and collections, so you can build an inspired flooring palette for your spaces without sacrificing form for function. Choose LVT in wood or abstract styles for a cool complement to the organic and geometric designs of Spin. Bring in patterns from our other carpet collections to underscore Spin's textural depth and richness.
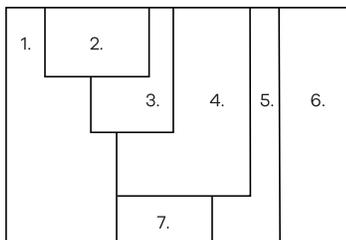

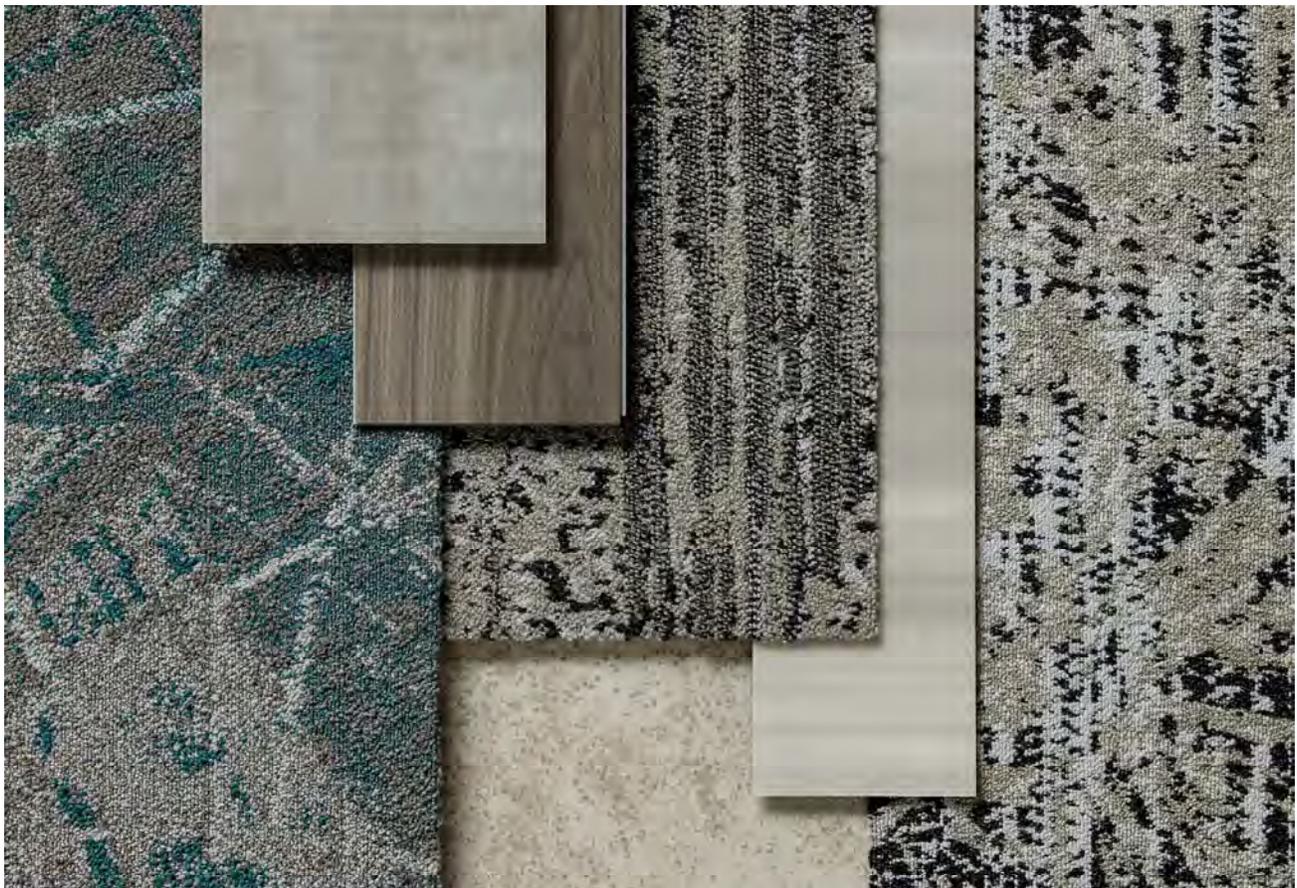

1. Spin, Disc, Smooth Jazz
2. Discovery, Unlock, Destiny
3. Mannington Crown Collection, Dusky Walnut
4. Spin, Channel, Rock & Roll
5. Northern Wonder, Illusion, Glimpse
6. Spin, RPM, Rock & Roll
7. Teles, Beach Stone

Proven by Third-Party Testing

All of our carpet products are third-party tested and proven to exceed industry standards in appearance retention, texture retention, fire safety factors and static generation, and our modular carpet exceeds industry standards in dimensional stability—so you can be sure that the carpet you specify will perform for years to come.

Easier to Maintain

> All the carpet fiber we use delivers greater resilience against matting and resists abrasive wear, keeping the carpet looking better.

> XGUARD® Stain Resistant Technology provides long-term stain resistance for our space dye products.

> ColorSafe® Bleach Resistant Technology resists color fade-out from bleach spills for our space dye products.

> Moisture-barrier backings are built to withstand aggressive wet cleanings.

Backing Advantages

> Infinity® 2 Modular backing provides exceptional performance with a moisture barrier.

> Infinity® 2 Modular backing offers superior tuft bind and dimensional stability with a limited lifetime warranty.

Sustainable Solutions

> Supported with EPDs and HPDs.

> Infinity® 2 Modular backing is CRI Green Label Plus Certified and NSF/ANSI 140 Gold Certified.

> Infinity® 2 Modular backing contains recycled content.

TARR

> Spin Collection carpet was specifically designed with a 3.5 TARR rating for use in severe environments with rigorous foot traffic situations such as public areas, lobbies and dining facilities as well as transportation service areas such as airports. The TARR on our carpets is tested and verified by an independent lab.

Crafted with Purpose.

Get into the Groove

Create rhythmic flooring compositions with the Spin Collection, modular carpet inspired by vinyl records and the process of record-making. Our designer visited United Records, the largest record maker in the U.S., to understand the craft by which sound becomes a tangible object. Spin explores the vast aesthetic and texture of the grooves, scratches and curves that give music its form in vinyl.

- Specifications are based on averages from normal manufacturing tolerances. Such variations do not affect product performance.
- Protective chair pads are recommended under office chairs with roller casters to preserve appearance and avoid premature wear.
- As with all quality carpets, slight variation in color may occur from dye lot to dye lot.
- Backing or other materials may be changed without prior notice when shortages occur or when technological advancements provide improved product performance.
- This product is intended solely for use as an indoor floor covering and is not recommended or sold for any other purpose.
- The inherent characteristics of geometric linear patterns can result in double-dark or double-light lines at the seam and to some extent pattern run-off or bias. This is not a manufacturing defect, and as such, should be considered when selecting a modular carpet installation method.
- Cut piles, cut and loops and tip-sheared constructions are not recommended for heavy commercial traffic, corridors or through channeled traffic. Please contact your Mannington Commercial representative for information regarding these constructions and your specific end use application
- Please make your final selection from an actual swatch. To order samples, go to manningtoncommercial.com or call 800.241.2262 ext. 6913.
