## PEACOCKS

Location: Cardiff, UK

Products: Graphite Slate AR0SSL23

Blonde Oak AR0W7460

Composite Calcium AR0SGN11

A major retail giant turned to leading flooring company Amtico, when it came to the flooring for its international headquarters. Blonde Oak was used in the reception area and along all of the main corridors, the aim was to create a catwalk effect that distinguishes the various offices. Composite Calcium and Graphite Slate were also chosen from Amtico's cool stone range for breakout areas.
